

CEWELD SPA FeAl5

TYPE	Cored wire for the thermal spray process
APPLICATIONS	Rough surfaces against sliding and or applications that require a smooth finish after machining.
PROPERTIES	Aluminium alloyed tubular wire for electric arc spray on a Fe-Al basis with high bond strength.
CLASSIFICATION	
SUITABLE FOR	Coating walking surfaces against sliding, stairs, traction wheels and rollers, buffer layers etc.
APPROVALS	
WELDING POSITIONS	
(%)	
MECHANICAL PROPERTIES	
REDRYING	Not required
GAS ACC. EN ISO 14175
